

Topic	Possible Effect of Constraint on Product	Solution
Hardware and software platforms	What could be a constraint on the product. How? Why is it a problem?	How the constraint will be avoided or how it isn't a consideration
Performance requirements	Project brief has specific guidelines	Follow the brief
Persistent storage and transactions	Need persistent dataset for testing development and demonstration	Database will be seeded by the same file
Usability	It must be useable	Think about UX Design considerations
Budgets	None...this is learning	N/A
Time limitations	Not enough time to do all the additions and design work	Do my best within 1 week
